Why If's motorcycle insurance?

Excellent benefits and services for motorcyclists

1 Great bonuses for your motorcycle insurance

For Full Casco, you are granted an 80% bonus right away, and the bonus of the Motor Third Party Liability Insurance increases at the quickest pace in Finland. You are immediately granted the same bonus for all your motorcycles.

2 The first claim will not decrease your bonus

We think that it is fair to reward careful motorcyclists who rarely have accidents.

3 What to do and how to save money when you need towing

When you order towing from If's towing service at if.fi/hinaus, you do not need to pay the bill yourself and you avoid paying the deductible of 50 euros. We ensure that you can continue your journey and direct your motorcycle to a suitable repair shop.

4 Insurance according to your riding season

A round-the-year insurance policy is right for you if you take your motorcycle out early in the spring and ride late into the autumn. Laid-up insurance is suitable if your ride less.

Motorcycle insurance in a nutshell

Casco Insurance complements the Motor Third Party Liability Insurance

Motorcycle insurance consists of Motor Third Party Liability Insurance and the Casco Insurance you have selected.

The Motor Third Party Liability Insurance covers any bodily injury or property damage caused by your motorcycle in traffic, but it does not cover any damage to your own motorcycle or to the rider's, owner's or keeper's property. You will need Casco Insurance to cover these.

Select the level of cover for Casco Insurance carefully

The most common types of damage compensated under Casco Insurance are collision, falling, running off the road, theft and malicious damage. You can choose the Casco Insurance from among two options: Full Casco or Semi Casco.

Why Full Casco?

By getting Full Casco, you can drive without worrying. Full Casco covers damage caused by a collision, running off the road or hitting an animal or tree, for example. We will also take care of towing your motorcycle to the nearest repair shop if your journey is interrupted.

You can easily file a claim on [My Pages](#) or via [If Mobile](#). You can also follow the processing of your claim on [My Pages](#).

My Pages are currently provided only in Finnish and Swedish.

Read more about our services on our [Customer service web page](#).

Why Semi Casco?

Under Semi Casco, you can receive compensation for loss or damage arising from malicious damage, theft or fire, for example. It also covers towing and travel expenses.

Select the pricing model according to your use

You can choose a motorcycle insurance policy based on an annual premium rating or laid-up insurance.

Insurance based on an annual premium rating

Insurance based on an annual premium rating is an easier and less expensive option if your riding season is long. As your insurance cover is valid at all times, you can always start your riding season without worrying. You do not have to report when you use your motorcycle or when it is laid up. Decommissioning does not affect your premium, as the laid-up period during the winter is taken into account in your premium.

Insurance premium and invoicing for insurance based on an annual premium rating

(The percentages are indicative.)

The price of insurance based on an annual premium rating increases for the summer as your motorcycle is exposed to more risks during the summer. In winter, the price of Casco Insurance is low and no premium is charged for the Motor Third Party Liability Insurance. The total price determined on this basis is invoiced evenly throughout the year.

Laid-up insurance

Laid-up insurance is a better option if you only ride a few months a year. The premium of laid-up insurance is the same throughout the year. The invoicing is always based on a 12-month annual premium and will be discontinued immediately after you have reported on If's My Pages that your motorcycle has been decommissioned from traffic use. The end of the riding season will be taken into account in the next invoice. The motorcycle may not be used during the notified decommissioning period.

Bonus of the motorcycle insurance

Your insurance bonus also affects the price of the Motor Third Party Liability Insurance and Full Casco. Semi Casco does not include the right to a bonus.

Registration and insurance from If easily at the same time

- Register your vehicle and take out insurance easily at the same time at if.fi/ajoneuvo or on My Pages.

Compensation

Report your loss or damage immediately to If. The easiest way to report a claim is on [My Pages](#) or via [If Mobile](#). We will primarily compensate by paying the repair costs of your motorcycle or a corresponding amount. Your motorcycle may also be redeemed at its market price or in accordance with the regulations included in Redemption Cover if it cannot be repaired at a reasonable cost. Market price is the cash price that could have been obtained for your motorcycle at the time of the loss or damage. When determining the market price, the market situation and your motorcycle's condition will be taken into account. The deductible stated in your policy document will be deducted from the compensation.

The insurance company is entitled to decide on the repair shop, towing company or car rental company from which the service in

question is purchased. Therefore, you should always contact If first. If the towing, repair, rental or other service or spare parts of a vehicle are purchased from a service provider or seller other than that designated by If, their costs will only be covered up to the amount that would have been incurred if the service provider designated by If had been used.

The precautions included in the insurance terms and conditions must be observed. If they are ignored, compensation may be reduced or refused.

Calculation of the insurance premium

The aim of pricing is to ensure that the insurance premium corresponds to the risk of each insured person at any given time. Consequently, insurance premiums are distributed fairly between all insured persons. Factors affecting the premium include the

time of granting the insurance, the policyholder's age and place of residence, the amount of deductible, insurance and claims history, the scope of cover and whether the policyholder is a member of If's customer benefit program.

Factors affecting the premium will vary from one insurance cover to the next. In addition to your claims history, the price of motorcycle insurance is affected by the selected pricing model.

Insurance is a contract

Insurance is based on an insurance contract. The contract determines the scope of cover and the amount of deductible.

Report information on the owner and keeper of the vehicle based on the actual situation. If incorrect information has been provided, the insurance company can refuse compensation and annul the insurance contract.

Paying the Premium

Casco Insurance remains valid if the insurance premium is paid no later than the date due. If the insurance premium has not been paid, If will terminate the insurance, effective at the earliest 14 days from the date of dispatch of the notice of termination.

With e-invoicing, you can pay for your policy in 1, 2, 4 or 12 instalments without additional costs. Alternatively, you can receive a paper invoice by mail or a free invoice on your My Pages. If you want to pay your bill in more than one instalment, we charge 2.90 euros for each paper invoice. For further information, please visit if.fi/elasku.

Changes to and expiry of the insurance contract

Motorcycle insurance is a continuous insurance policy that is valid for an agreed insurance period at a time. Any changes in the Insured Interest must be reported to our company.

The insurance company may amend the insurance terms and conditions and adjust premiums at the turn of the insurance period as provided in the terms and conditions.
